Austin, TX | (512) 731-0298 | yungching68@gmail.com | [LinkedIn](#) | [Portfolio](#)

EDUCATION

The University of Texas at Austin (UT Austin)

M.S. in Information Science

Austin, TX

May 2025 - May 2027

Relevant Coursework: Human-AI Interaction, Agentic Workflows, Deep Learning & Multimodal Systems,

GPA: 4.0/4.0

Accessible UX, Database Management, Startup Consulting Practicum

National Taiwan University (NTU)

B.S. in Psychology

Taipei, Taiwan

GPA: 3.98/4.3

Relevant Coursework: Statistics, Methods of Psychological Experiments, Design Thinking, Human Computer Interaction

PROFESSIONAL EXPERIENCE

Cloudflare

Austin, TX

Product Manager Intern, SSL/TLS Team - [GA launch blog](#)

May 2026 - Aug 2026

- Shipped [Certificate Transparency Monitoring](#) from a 7-year public beta to general availability (GA), reducing unnecessary alert volume across 650K+ customer domains
- Led customer discovery across 14 community threads, 20 support tickets, Salesforce data, and customer success feedback, pinpointing alert fatigue as the primary adoption barrier and prioritizing automatic certificate filtering
- Owned the PRD and two-phase roadmap for certificate filtering and unified plan-tier settings, using Figma Make to prototype the solution and align engineering on scope and feasibility
- Coordinated engineering, legal, design, and go-to-market teams to launch automatic filtering, clearer alerts, and an updated dashboard; initial six-day rollout suppressed 199K of 333K certificate events (60%)

NUWA Robotics

Taipei, Taiwan

Product Design Researcher - Product Strategy & Discovery

Dec 2023 - Apr 2025

- Conducted bilingual market and competitive research across 10+ AI educational and service robots, partnering with product, design, and engineering to translate competitive gaps into two features added to the Q2 roadmap
- Productized three recurring hotel-service use cases into a reusable robot workflow automation templates, standardizing partner onboarding and solution demonstrations for hotel customers, including Hilton, across Taiwan and the U.S.
- Led the redesign of NUWA's WordPress support center, using competitive benchmarking, information architecture, and Figma prototypes to increase traffic by 23% and improve customer onboarding and sales enablement
- Delivered 20 product-training sessions for 11 distributor partners, simplifying SaaS capabilities and equipping partners to support 100+ end users

Longhorn Wellness Center, UT Austin

Austin, TX

Data Analyst

Aug 2025 - May 2026

- Built an engagement analytics tracker consolidating Qualtrics data across 208K+ student touchpoints and seven engagement strategies, centralizing participation trends for program coordinators
- Translated student focus group feedback into three priority engagement strategies representing 75% of coded responses, guiding campus-wide wellness programming toward students' highest-priority needs

PRODUCT PROJECT

AI Assistant for SNAP Benefits - Human-AI Interaction, UT-Austin

- Partnered with UT Outpost SNAP advisors to identify applicant pain points and redesign a 13-step eligibility screener into a personalized three-phase conversational flow
- Built an AI assistant using Figma and Claude Code with verified-source citations, uncertainty disclosures, targeted follow-ups, and human-advisor handoffs
- Validated with student applicants and SNAP advisors, achieving 3-minute task completion, an 88 System Usability Scale (SUS) score, and 84% perceived trust

KEY SKILLS

Product Management: Product Discovery, PRDs and Product Specifications, User Stories, Requirements and Acceptance Criteria, Roadmapping, Prioritization, Product Analytics, Agile Product Delivery, Go-to-Market, Product Launch

Research & Design: User Research, Market Research, Competitive Analysis, Usability Testing, UX Design/Research, Experimental design, Prototyping, Figma, FigJam, Qualtrics

Data & AI: SQL, Python, R, PyTorch, Tableau, Data Visualization, Machine Learning, AI Prototyping, API Integration, OpenCode, Claude Code

Tools & Languages: Jira, Confluence, GitHub/GitLab; English, Mandarin Chinese
